

The Evolve Water Project, a non-profit formed by the Evolve Water Company, can provide an awareness and fund-raising tool specifically for your Change4Change campaign.

Evolve will work with you to determine a low price for pallets of their bottled water, including label design and shipping, and will make a donation to your campaign for every case you purchase. Once you've got your water, you set the price per bottle, and when you sell the water, your profits can also go to your campaign.

Evolve Water comes directly from a Wisconsin spring, and, with the highest natural pH levels of any bottled water on the market, has been recognized for its quality, health benefits, and pure taste. The Evolve Water Project is already supporting the Living Waters campaign at Concordia University Wisconsin and has distribution in place to support campaigns across the country.

To discuss the specifics of partnering with Evolve Water to help fund your campaign, contact Joshua Haas at 715.213.3126 or joshua@evolve-h20.com, and learn more about Evolve at evolveh2o.com
